Color & Coordination

- Bright hues and primary colors shall not be permitted on structures
- Colors should be harmonious with their surroundings
- No one color may be applied to the entire structure; there should be at a minimum one main body color and one trim color
- The color palette should be restrained; no more than four different paint colors should be applied to a structure

Pre-approved Paint Colors (Body)

All colors names/codes are Sherwin Williams, however, any manufacturer can be used as long as the color matches the color swatch on the approved color chart.
